Consumers may bring lead-acid batteries to any Wisconsin retailer that Battery issues Around a week after purchase the auto stop/start begins working only intermittently, week after it stops completely (MY CAR shows that battery charge is too low or battery not up Low battery charge error | Volvo V40 ForumsHello everyone, I just bought my first car, a Volvo V40 T3, and a warning appears on the dashboard that says 'low battery charge.' The car is recently purchased and is Secondary Battery My main battery just died, had it replaced with same, and car kept giving me Battery charging, so no stop start. When stop/start worked, it was for about 10 sec, and car How to fully remove battery? To remove the battery you need to: 1) Remove the battery charge monitor sensor lead from the earth terminal 2) Remove the earth terminal 3) Remove the 2 thick leads from EFB or AGM Upgrade Hi, Main battery needs changed, currently has the OEM EFB battery. Thinking of upgrading to an AGM Battery, has anyone done this and had any issues?? Low battery charge Power save mode The system shuts down to preserve battery charge. For your own peace of mind you could check the battery readings with an OBDII adapter (battery level %, alternator current "Low Battery Charge" HELP Have the battery checked at dealers - and just using a multimeter on the battery won't show duff cells in the battery.
