

## Bulgarian Island Energy Storage Project

Why is energy storage growing in Bulgaria? Energy storage in Bulgaria is expanding rapidly as the government awards nearly 10 GWh of capacity to 82 projects, boosting renewable energy reliability and grid stability. How many project proposals were submitted in Bulgaria's energy storage procurement procedure? A total of 151 project proposals were submitted in Bulgaria's standalone energy storage procurement procedure named RESTORE, which is seeking to support the construction and commissioning of renewable energy storage facilities with a cumulative minimum usable capacity of 3 GWh. What does Bulgaria's surge in storage capacity mean for Europe? As Europe races toward climate neutrality, Bulgaria's surge in storage capacity signals a shift not only in national priorities but also in regional energy dynamics. How will the selected storage systems be distributed in Bulgaria? The selected storage systems will be geographically distributed across Bulgaria and connected either to the national transmission grid or local distribution networks. All awarded projects must be operational by March . How much money does the NRRP provide for energy projects in Bulgaria? Under the RESTORE initiative, launched through Bulgaria's National Recovery and Resilience Plan (NRRP), the Ministry of Energy has selected 82 projects that will collectively receive BGN 1.15 billion (approximately \$675 million) in public funding. Is Bulgaria moving towards a greener energy future? Bulgaria is taking bold steps toward a greener energy future, having recently wrapped up its most ambitious energy storage tender to date. Bulgaria grants EUR 587 million to 82 battery storage projects. Developers of 82 standalone battery storage projects in Bulgaria, for an overall 9.71 GWh in capacity, got approval for EUR 587 million in subsidies from the Ministry of Energy. Sunotec, Shell sign spread hedge deal for Bulgarian BESS project. German-Bulgarian solar photovoltaic (PV) plant developer Sunotec signed a five-year cross-border spread hedge agreement with UK-based energy commodities trader Shell. Bulgaria's 3 GWh standalone energy storage. A total of 151 project proposals were submitted in Bulgaria's standalone energy storage procurement procedure named RESTORE, which is seeking to support the construction and commissioning of renewable energy storage facilities with a cumulative minimum usable capacity of 3 GWh. Bulgaria finalises EUR600m funding for 10GWh of In February, state-owned utility and power generation firm NEK announced plans to deploy BESS totalling nearly 300MWh at five of its hydropower sites across Bulgaria. Bulgaria has selected 82 winning projects. Bulgaria Commits EUR600 Million to Nearly 10GWh in Energy Storage. Bulgaria's Ministry of Energy has approved EUR588 million in funding for 82 standalone battery energy storage projects, totaling nearly 9.7GWh of usable capacity. The Energy Storage in Bulgaria Surges with 9.7 GWh Under the RESTORE initiative, launched through Bulgaria's National Recovery and Resilience Plan (NRRP), the Ministry of Energy has selected 82 projects that will collectively receive BGN 1.15 billion. Bulgarian Tender Awards Nearly 10 GWh of Energy Storage. The chosen projects were evaluated for their ability to meet Bulgaria's energy storage needs while adhering to the program's rigorous standards. The high storage capacity. Shell & SUNOTEC Sign for Cross-Border BESS Project. Shell partners with SUNOTEC on a cross-border battery storage project in Bulgaria, advancing regional energy transition. Bulgaria allocates close to 10 GWh of energy. All facilities must be connected to

## Bulgarian Island Energy Storage Project

Bulgaria's grid and operational by March . RESTORE is part of Bulgaria's National Recovery and Resilience Plan (NRRP), which supports the country's SUNOTEC, Sungrow, battery energy storage, BESS, solar This collaboration marks Sungrow 's first battery storage project in Bulgaria. The battery systems are expected to support grid stability, improve renewable energy integration, Bulgaria grants EUR 587 million to 82 battery storage projectsDevelopers of 82 standalone battery storage projects in Bulgaria, for an overall 9.71 GWh in capacity, got approval for EUR 587 million in subsidies from the Ministry of Energy. Bulgaria's 3 GWh standalone energy storage tender heavily A total of 151 project proposals were submitted in Bulgaria's standalone energy storage procurement procedure named RESTORE, which is seeking to support the Bulgaria finalises EUR600m funding for 10GWh of energy storageIn February, state-owned utility and power generation firm NEK announced plans to deploy BESS totalling nearly 300MWh at five of its hydropower sites across Bulgaria.
