

Clever use of extra lithium battery packs

In this complete guide, as a professional 18650 battery pack manufacturer, we'll cover all the most common and creative uses for 18650 lithium-ion batteries. We'll also explore the different types of 18650 cells, talk safety and legal considerations, and give tips for harvesting used 18650 cells. Lithium-ion 18650 batteries have become an extremely popular option for powering all kinds of devices these days. With their cylindrical size and solid performance specs, these batteries strike the perfect balance between portability, capacity, and power output. I've used 18650s to make battery

Electric cars offer real environmental perks mainly because they cut down on bad emissions and reduce our reliance on oil. When someone drives an electric vehicle powered by cleaner energy, it helps lower air pollution levels and shrinks their carbon footprint quite a bit. Take the Tesla Model S

In this guide, we'll walk you through 14 practical ways to use a 12V lithium battery--from powering your adventures to backing up your home.

1. Powering Bass Boats & Trolling Motors Boaters love lithium for good reason. A 12V lithium battery delivers longer run time, lighter weight, and zero

Want your lithium battery to last a full decade? In this video, we'll show you the best practices for storing, reusing, and caring for your lithium batteries to maximize their lifespan. Whether you're storing them long-term, bringing them back to life, or using them daily, these tips will help

Whether you're into Arduino, RC cars, robotics, or portable gadgets, this custom-built 12V lithium-ion battery pack is a must-have. In this tutorial, I'll guide you through the complete process -- from components and features to step-by-step assembly and testing. This isn't just a basic battery

The methods used to build a battery pack from cylindrical cells are fairly well known, but pouch cells don't seem to have a decent article yet, to describe the "best practices" on how to build them. I'll do my best to show what I found when I recently did a search.
