

New Energy Storage Capital

Who is New Energy Capital? New Energy Capital, an investment franchise of Victory Capital Management Inc., a registered investment adviser, is a leading alternative asset management manager which invests across the capital structures of clean energy infrastructure projects and companies. Should bulk energy storage be added to New York's grid? Adding bulk energy storage to New York's grid will lower costs, optimize the generation and transmission of power, enhance energy grid infrastructure, and ensure the reliability and resilience of the State's electricity system. Why is energy storage important in New York? New York State Department of Environmental Conservation Commissioner Amanda Lefton said, "Energy storage is fundamental to help ensure reliability while New York continues to invest in renewables and reduce greenhouse gas emissions that are polluting our air and negatively impacting quality of life for New Yorkers. What is bulk energy storage & how can it help New York? New York Secretary of State Walter Mosley said, "In looking ahead for the state's future, bulk energy storage can provide the ability to store excess electricity during times of lower usage or high renewable production and return that electricity to the grid during peak times when it's needed most. Why did New York approve a plan for a battery energy storage system? CBS News New York Investigates' Mahsa Saeidi looked into the potential risks the sites could pose, and the state's response to previous incidents. The state approved a plan to convert the land into one of the nation's largest battery energy storage systems. Gov. Will New York City's largest battery storage facility replace a natural gas peaker? New York City's largest battery storage facility will replace a natural gas peaker plant unit retiring in . First Bulk Energy Storage Solicitation Announced As Part of New Adding bulk energy storage to New York's grid will lower costs, optimize the generation and transmission of power, enhance energy grid infrastructure, and ensure the Home New Energy Capital, an investment franchise of Victory Capital Management Inc., a registered investment adviser, is a leading alternative asset management manager which invests across NYCEDC Advances Green Economy Action Plan with Support of The IDA has supported approximately 254MW of battery storage capacity in New York City, generating more than \$400 million of private investment and supporting progress NYCEDC and Newlab Announce New Resilient Energy Cohort "Through the Resilient Energy Studio, NYCEDC and Newlab are supporting the next generation of startups as they define the future of urban energy storage," said NYCEDC President and CEO One of the nation's largest battery energy storage sites is coming One of the country's largest battery energy storage sites is about to be built on Staten Island, but families say by the time they learned of the plan, it was already a done deal. New York's Energy Storage Goals Provide Ultimately, the new ISC framework incentivizes developers to build future energy storage while, at the same time, securing a more resilient future for New York communities. New York City is about to get its largest battery When New York City's largest battery storage installation is complete, it will be able to power more than 10,000 households during peak demand periods. Scale Microgrids and Dispatch Energy get new Scale Microgrids and Dispatch Energy, two US commercial and industrial (C& I) distributed generation and storage providers, have secured new capital for growth through

New Energy Storage Capital

acquisition and capital THE ENERGY STORAGE CAPITAL CHALLENGE REPORT Discover the fourteen capital solutions that can unlock the energy storage market in New York State. The good news. We have an abundance of innovative, ready-to-scale ENERGY STORAGE CAPITAL CHALLENGE PROJECT The Clean Fight is thrilled to announce the selection of six innovative energy storage projects for the Energy Storage Capital Challenge. These development-stage projects First Bulk Energy Storage Solicitation Announced As Part of New York Adding bulk energy storage to New York's grid will lower costs, optimize the generation and transmission of power, enhance energy grid infrastructure, and ensure the New York's Energy Storage Goals Provide Incentives for Developers Ultimately, the new ISC framework incentivizes developers to build future energy storage while, at the same time, securing a more resilient future for New York communities.
