

New energy stations operating in Nigeria

In areas like the Lekki Free Zone, Abuja, and Ibadan, pipelines have already been laid and compressed natural gas (CNG) stations commissioned, signaling real progress on the ground. Legit 's Pascal Oparada has reported on tech, energy, stocks, investment and the economy for over a decade. NIPCO, the oil marketing company, is increasing its investment in compressed natural gas (CNG) infrastructure to reduce Nigeria's reliance on petrol and support cleaner energy. NIPCO's "We operate three onshore gas processing plants, and with our recent acquisition of ExxonMobil's offshore assets, we expect to process up to one billion cubic feet of gas per day." Gas is now expected to do the heavy lifting by powering industries, fueling transport, and lighting homes. The change

The Nigerian National Petroleum Company Limited (NNPCL) has unveiled additional Compressed Natural Gas (CNG) stations in Abuja, Ibadan, and Abeokuta, further advancing its mission to provide cleaner, more affordable energy across the country. **KINDLY READ THE FULL STORY HERE?** "We're expanding

In a move to mitigate high transportation costs following the removal of fuel subsidies, the Nigerian National Petroleum Company Ltd (NNPC), in partnership with NIPCO, has commissioned 12 Compressed Natural Gas (CNG) stations in Abuja and Lagos. This initiative is part of the Presidential CNG

An NNPC subsidiary has launched an EV charging station, moving Nigeria closer to energy self-sufficiency, reduced dependence on fuel imports. NNPC New Energies Limited (NREL), a subsidiary of the national oil company, Shafa Energies and Nigus International, on Thursday launched Nigeria's first

Nigeria's energy sector is undergoing a significant transformation as the Nigerian National Petroleum Company Limited (NNPC), in collaboration with Axxela, embarks on the construction of six new Compressed Natural Gas (CNG) stations across the country. This strategic initiative aims to enhance

NIPCO Expands CNG Rollout in Nigeria, Plans 35 NIPCO has unveiled plans to expand and deepen CNG infrastructure nationwide and partner with the NNPC to build about 35 autogas stations in Nigeria. The Power Beneath Nigeria's Energy Revival

The change is rooted in policies that prioritize domestic utilization, energy security, and sustainable development. In areas like the Lekki Free Zone, Abuja, and Ibadan, pipelines

NNPC Unleashes Clean Energy Drive With New CNG Stations With our latest launch in Abeokuta, Abuja, and Ibadan, more Nigerians now have access to affordable, eco-friendly fuel for daily transportation," NNPCL announced via its

175 new CNG stations coming, says PCNGI boss

The Presidential Compressed Natural Gas Initiative (PCNGI) Chief Executive, Engr. Michael Oluwagbemi has said investors are currently developing 175 new CNG stations nationwide. He said the NNPC and NIPCO

Roll Out 12 New CNG Stations In a move to mitigate high transportation costs following the removal of fuel subsidies, the Nigerian National Petroleum Company Ltd (NNPC), in partnership with NIPCO, has commissioned 12 Compressed

NNPC Spearheads Clean Energy Initiative, Unveils An NNPC subsidiary has launched an EV charging station, moving Nigeria closer to energy self-sufficiency, reduced dependence on fuel imports. Nigeria's CNG Expansion: Pioneering Sustainable Energy Adoption

Nigeria's energy sector is undergoing a significant transformation as the Nigerian National Petroleum Company Limited (NNPC), in collaboration with Axxela, embarks on the

New energy stations operating in Nigeria

Nigeria: NNPC, Shafa Energies, Nigus Unveil Nigeria's First NNPC New Energies Limited (NNEL), a subsidiary of the national oil company, Shafa Energies and Nigus International, Thursday launched Nigeria's first Electric Vehicle (EV) charging station. NNPC Ltd. to Launch 12 CNG and LNG Facilities The Nigerian National Petroleum Company Ltd. (NNPC) has unveiled plans to establish 12 Compressed Natural Gas (CNG) mother stations and mini-Liquefied Natural Gas (LNG) plants across Nigeria, Construction Starts on Five Mini-LNG Plants in Nigeria 'These Mini LNG facilities will ensure the efficient transportation of gas over long distances, providing a cleaner and cheaper source of energy to households, mobility, industries, and

NIPCO Expands CNG Rollout in Nigeria, Plans 35 New Stations NIPCO has unveiled plans to expand and deepen CNG infrastructure nationwide and partner with the NNPC to build about 35 autogas stations in Nigeria. 175 new CNG stations coming, says PCNGI boss The Presidential Compressed Natural Gas Initiative (PCNGI) Chief Executive, Engr.
