

## Venezuela's new energy storage policy

---

Venezuela's Energy Ministry recently unveiled plans for 47 new shared storage hubs. The phased rollout prioritizes: Will this solve all energy problems? Probably not. But it's already creating ripple effects - the country's renewable storage capacity grew 800% since Q2 . Renewable Energy and the Energy Transition in Venezuela: Guacamaya, November 3, . Oil has historically been Venezuela's most influential and alluring natural resource -- a source of wealth, but also of inequality, Venezuela s new energy storage policy The brief brings together the most up-to-date information on renewable energy public policies for the power, heating and transport sectors, and also includes a section on energy access Oil, Gas and the Transition to Renewables Both the oil and gas sectors are governed by the Venezuelan constitution.
